

Resort Style Living

Architects and Interior Designers, 'Bayview Design Group', along with award-winning builder, 'Matrix Additions', worked hand in hand with the owners to create four levels of superbly finished interiors. The dwelling includes five bedrooms, four bathrooms, a formal lounge with wet bar, 1000-bottle wine cellar, gym and theatre room. There is approximately 600sqm of internal living area that features a large entertaining patio overlooking the river. It's a light-filled space that promotes a seamless design, with good flow from indoor to out.

Luxury products high on the agenda

The home ticks all the boxes on the project's brief. The clients were after a resort-style feel with luxury products high on the agenda and easy accessibility within all four levels of the home combined with beautiful water views. To heighten the holiday feel, an open-plan living space was proposed with a connection to the outdoors, as well as a contemporary design with edge.

The seamless connection between outdoor and indoor spaces is very important as the owners have many barbecues and parties with friends and family. To further heighten the outdoor elements, floor-ceiling picture windows and doors, allows the picturesque view to be admired from any room.

Premium DomusXL elevator, takes the prestige home to an exciting new level....

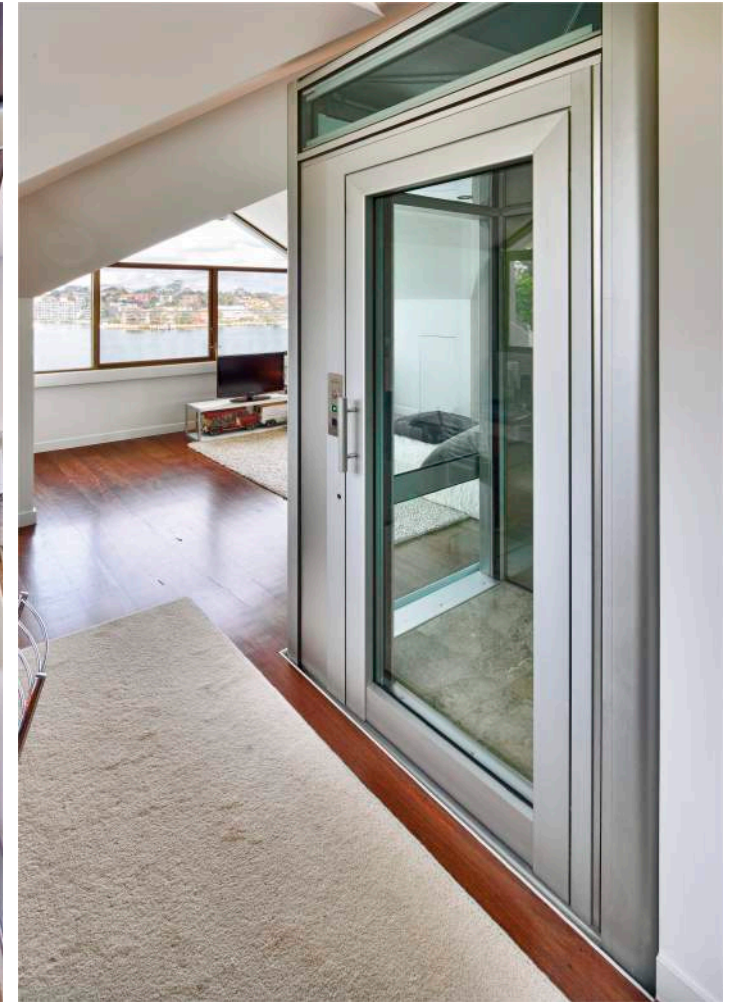

Installed in the core of this chic and modern home is the "world class premium DomusXL elevator, which has taken the prestige home to an exciting new level. The clients were after after the very latest in innovation, European quality and style when it came to their lift and selected Easy Living Home Elevators as their lift company of choice. They opted for the DomusXL lift featuring an elegant, self-supporting glass tower as well as smooth and whisper-quiet operating system.

Seamless & Sophisticated...

It was custom designed for the owners and features modern, sleek and luxurious Italian finishes to the highest standards. The self supporting glass tower plays an important role, it ensures the lift integrates architecturally within every level of the home and does not obstruct the beautiful view from any angle of the dwelling.

Its the use of quality products such as the DomusXL lift which make the luxurious abode a one-of-a-kind creation. With a modern finish and desire to embrace the natural surroundings and original appeal of the space, this home has been a successful project for all involved!
