

Easy living Home Elevators have teamed with [Walter Barda Design](#) to create this spectacular lift installation of a 'SuperDomus Through-Car' in this impressively designed, Bronte Beach-front Residence.

Designers : Walter Barda Design PTY LTD

Location : Eastern Suburbs, Sydney

Photographer : Marian Riabic

The designer has happily achieved such a relationship between the built and natural environment with the expansive use of glass within the elevator, capturing the breathtaking ocean views which create a beautiful back drop for the *SuperDomus*.

Complimented by it's unique sandstone shaft, the surrounding area is decorated with a stunning array of rustic, ocean inspired artifacts to tie in with the natural surroundings of the home.

The crystal glass sliding doors give the elevator that luxurious edge, whilst also creating more natural light and a sense of a larger space. The interior finishes of the lift are stainless steel and mirror to tie in with the designer's concept which was to create a 'subtle, seamless, natural space'.

Easy living Home Elevators and  
Walter Barda Design

have been successful with adding practicality, value and style to this residence, whilst staying true to the design concept and elements in which the rest of the house portrays.

A true masterpiece!
