UNLEASH YOUR CREATIVITY

BE INSPIRED | DOMUS ADVANTAGE LIFT

WORK OF ART INSIDE THE LIFT SHAFT

Easy Living Home Elevators and Geoff Longhorn from Runaway Bay have collaborated to create this quirky, inspiring and very stimulating lift installation! Featuring our Domus Advantage Lift, the space has been decked out to the nines to give each level a divergent experience and feel. The eccentric space features: San Francisco at the Ground Entrance, Paris and its iconic Eiffel Tower for the second floor, Las Vegas on the bedroom level and finally the rooftop level, which captures beautiful views of the Gold Coast, Broadwater and Surfers Paradise.

A glass lift car was selected by the owners as they wanted to highlight the work of art inside the lift shaft and provide as much natural light as possible into the home. This, combined with a mirrored stainless steel wall to reflect the 4000mm x 2800mm murals created a dramatic, three dimensional effect.

“

I would like to thank Easy Living Home Elevators for working in with me to help create the stunning effect with murals that I have used in our elevator. The team from sales to installation were great to work with, very professional and precise. I am very happy with the workmanship and finish of the elevator and fully recommend Easy Living Home Elevators for their service and back- up.

Geoff Longhorn, Homeowner & designer

"22+ years on, the Domus Advantage is a true Australian icon, designed, engineered & built in Italy to suit the requirements of the Australian market"

THE DOMUS ADVANTAGE LIFT

Designed and engineered to new heights, the Domus Advantage lift is a two speed lift icon, representing the ultimate combination of power, flexibility, unmatched quality and legendary performance.

The owner of this amazing 4 level, superbly finished villa, Geoff Longhorn from Runaway Bay wanted to make his Domus Advantage Lift an artistic feature with a strong focus on his recent travels to Europe and the states. The result was Geoff's amazing design, incorporating murals inside the lift shaft, which captured some of the beautiful places he had travelled to and enjoyed.

PROVIDING NATURAL LIGHT

An impressive top hat glass tower positioned at the 4th floor – top level, was installed to create a sense of spaciousness and to capture panoramic views of the Gold Coast, Broadwater and Surfers Paradise. The tower also served as a purpose of providing natural light down the lift shaft and into the home through the glass “panoramic” doors. The glass doors were also designed to show off the ram, pulleys and cables creating a moving mechanical effect.

“Combining the murals and mechanics together, created a visual high-end three dimensional work of art, even when the elevator car is not at that floor. I also added additional lighting to enhance the murals” Geoff Longhorn, Homeowner & designer
