

EASY LIVING

‘WOW’ FACTOR

BE INSPIRED | DOMUS EVOLUTION LIFT

THE 'WOW' FACTOR

In pole position on the Great Ocean Road, sits the iconic Pole House, a manmade natural attraction. Built originally in the late 1970s, this experimental beach house recently fell victim to old age. Franco Fiorentini from F2 Architecture was given the opportunity to renovate this home. What's more, the owners, Kathi and Raymond Adams decided to include a two-storey counterpoint residence that sits unobtrusively at the rear of the site amongst the vegetation, yet rises to the occasion in subtle ways. The practical need for mobility brought the Adams family to Easy Living Home Elevators.

THE PERFECT CHOICE

The practical need for absolute mobility and a desire for premium aesthetic finishes to the finest detail brought the Adams' to Easy Living Home Elevators. Mrs Adams said the more open, accessible design for the new home was needed because her husband Raymond had become wheelchair-bound since they bought the property. They chose the Domus Evolution lift, due to its attention to detail and luxurious Italian finishes to the highest standards as well as the fact that the elevator will effectively turn the multi-level home into a single level at the push of a button, adding luxury, style, convenience and value. The residential lift was installed inside a masonry shaft clad with a spectacular curved feature wall covered with warm burnt ash timber, in perfect harmony with the surrounding environment.

DOMUS EVOLUTION LIFT

The award winning Domus Evolution Lift is a true Australian icon, designed, engineered and manufactured in Milan, Italy to suit the requirements of the Australian market.

Perfect for both residential and commercial applications. Featuring automatic stainless steel sliding doors, optional self supporting glass and steel towers, low pit and headroom dimensions. The Domus Evolution has all bases covered.

Our decision to include a elevator in our new beach house was one of necessity as my husband is wheelchair bound. However, we wanted to make sure that the elevator we chose had the “WOW” factor; and that’s exactly what Easy Living Home Elevators delivered.

From our first meeting where all options were explored and explained to the final testing, the service we got from the team at Easy Living Home Elevators was 10/10. They worked closely with our architect to design a lift that looks simply stunning.

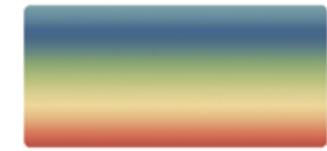

We could not be happier with the performance of our Domus Evolution Lift and the excellent service of the sales and after sales team, and would not hesitate to highly recommend Easy Living Home Elevators to anyone in the market for a high quality home elevator.

Maximum Thickness of 15mm

The elevator aligns with the couple’s desire to bring the home into the future – streamlined installation and efficient design with the low pit and headroom dimensions for an automatic home elevator, means no wasted space and no wasted energy. What’s more, the ground breaking Domus Evolution lift is sleek and contemporary and exudes the sense of class the Pole House demands. When in the area, pull over for a cheeky look or better still, add another day to your itinerary and stay the night.

SPECIFICATIONS

CAPACITY up to 400kg
