

LIFT COMMUNICATION

Compliant Solution

WARNING

ARE YOU NBN READY?

Disconnection date of 18 March 2022 has now been set for elevator services connected to the copper network.

With the NBN rollout now complete, don't get caught out!

A disconnection date of 18 March 2022 has now been set for elevator services connected to the legacy copper network.

What does this mean?

Unfortunately Australia's new NBN network cannot guarantee phone services will work during a power outage. As a result, it is crucial that elevator owners upgrade their Lift Emergency Phone line that may still be connected to the legacy copper network to meet Australian guidelines before 18 March 2022.

This will help ensure any trapped passengers can phone our 24/7 call centre, even in the event of a power failure.

What is the solution?

Easy Living Services can supply and install an advanced wireless compliant solution, that is not reliant on NBN connection or power.

Features:

- Approved to Australian compliance standards
- Stand alone solution
- Fail-safe battery back up with 24hours stand by
- 2.5 hours talk time
- Easily connects with your existing phone
- Compatible with all Australian networks
- In the event of a power outage, the phones keep working, unlike the NBN!

What do I need to do?

STEP 1. Contact us, we have a dedicated Customer Care team to assist our customers.

STEP 2. Purchase a wireless compliant solution from Easy Living Services.

STEP 3. Supply an active SIM card and have it ready for us on the day of installation.
