SAIL AWAY

BE INSPIRED | DOMUS ADVANTAGE LIFT

SAIL AWAY

Easy Living Home Elevators teamed with one of our valued customers and have once again pushed the boundaries with creativity and uniqueness! The two storey residence showcases our Australian icon, the ‘Domus Advantage Lift’ with the lift car measuring 1100mm wide x 1400mm in depth, contained in a sleek, sophisticated, custom designed glass tower, positioned in front of a dramatic, eye catching and ever so quirky mural.

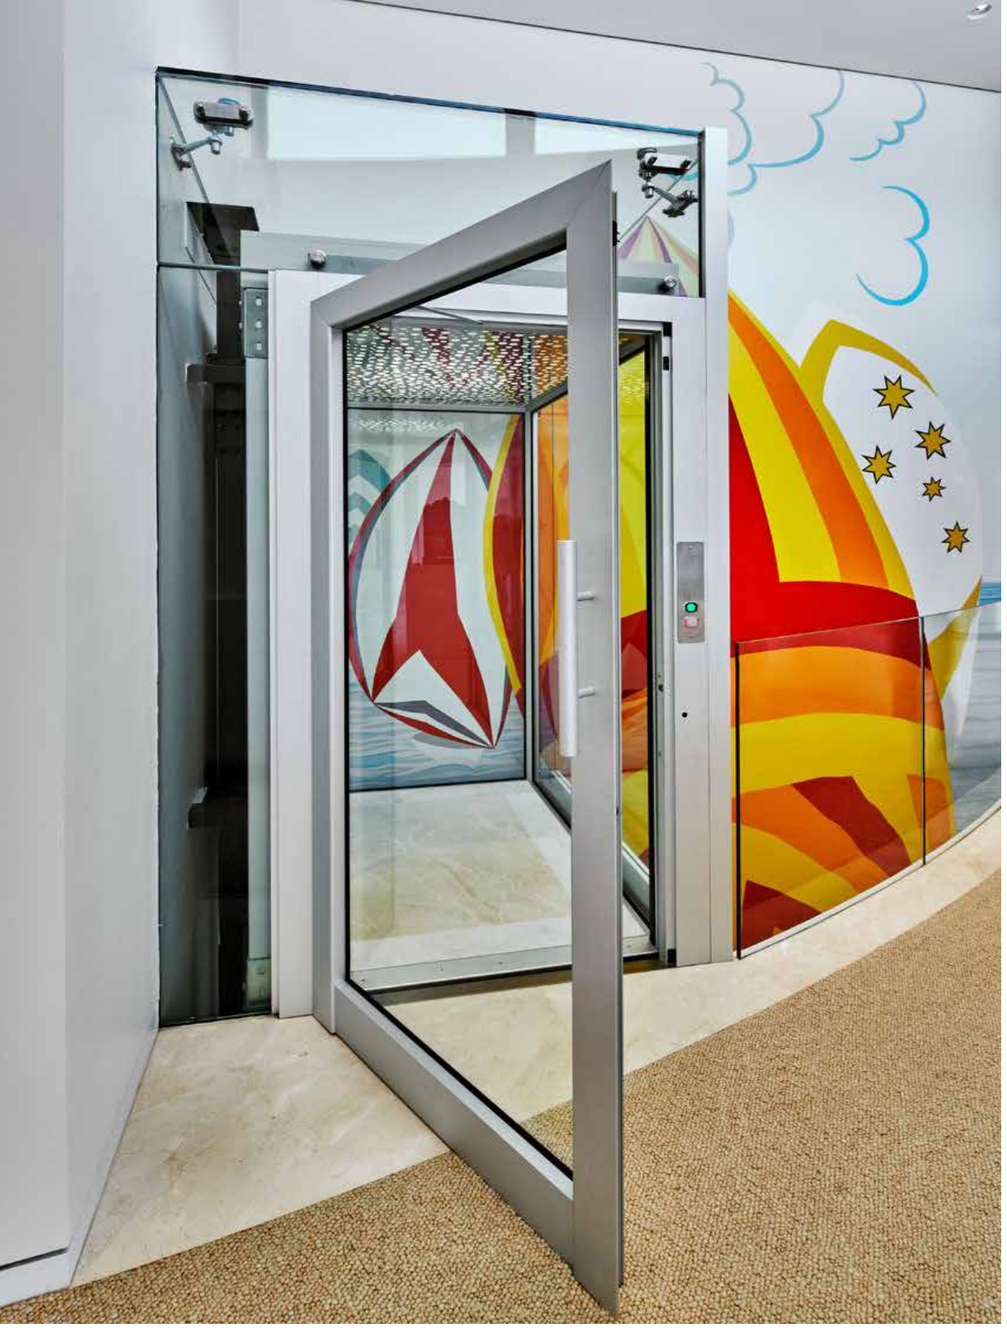
‘Vaucluse Residence’ Photographer: Marian Rabiac

THE ELECTRIC IDEA

The eclectic idea derived from the owner's love for sailing –

showcasing his passion through vibrant and spectacular paintings

which completely enhances an entire section of the home.

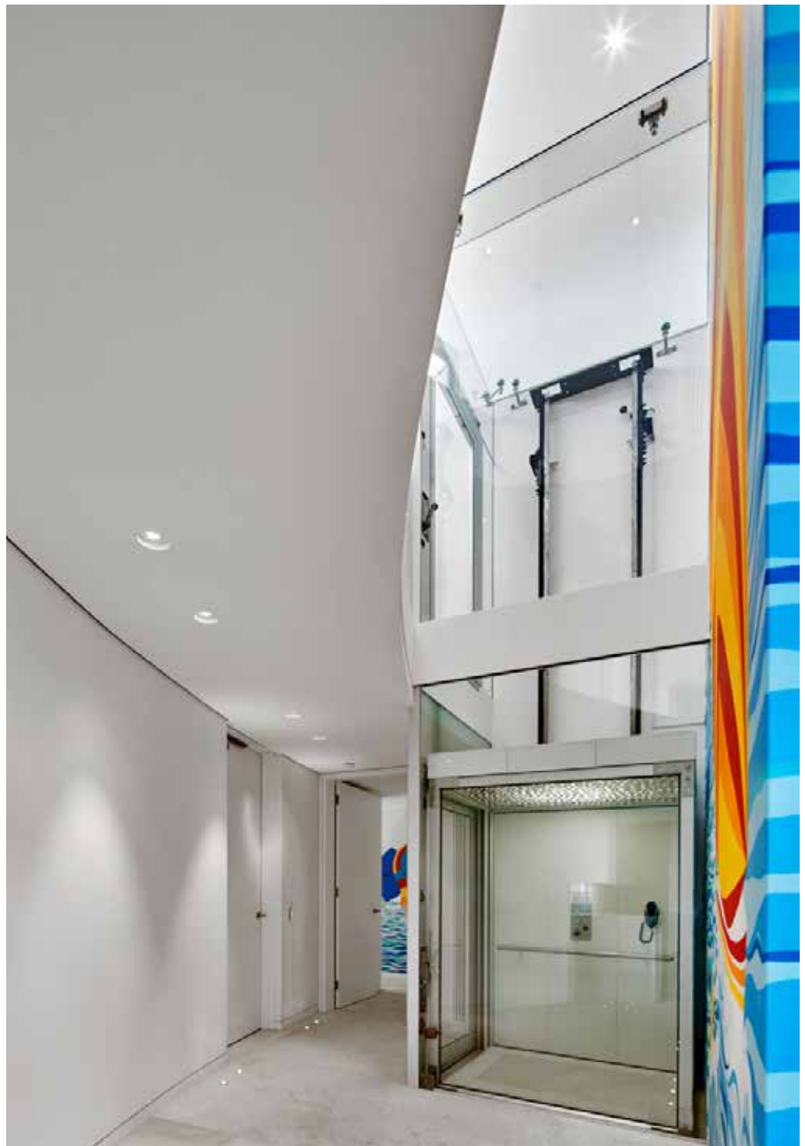


THE DOMUS ADVANTAGE LIFT

Designed and engineered to new heights, the Domus Advantage lift is a two speed lift icon, representing the ultimate combination of power, flexibility, unmatched quality and legendary performance.

ENSURING THE DOMINANT FOCUS

Transparent glass was selected for the side and rear walls of the lift car for complete transparency, with a polished white skinplate panel for the guide rail side, this was finished off with a mirrored stainless steel firmament ceiling. The surrounding space has been deliberately designed with lighter and neutral tones to ensure the elevator and mural are the dominant focus. A white curved ceiling, white walls, travertine flooring and a tan coloured carpet were selected to compliment the theatrical wall and the impressive lift installation! A successful collaboration of ideas based on individuality, have made this lift installation one of our finest proving once again, we have no limits!



"22+ years on, the Domus Advantage is a true Australian icon, designed, engineered & built in Italy to suit the requirements of the Australian market"
